

Saturday Morning, May 14, 1859.

**MOORE BUILDING.**—The labor of excavation, for the foundation of a dwelling house, has been begun by Mr. W. W. MARR, on the corner of Centre and Park streets, opposite ex-Mayor Morrison's. The lot is one of the most eligible in the corporation, and the building, we trust, will be on the same scale of merit.

The Palpit of the Presbyterian Church in this village, was supplied last Sabbath, by the Rev. Mr. RICHARDSON, of Austburg, by way of exchange with the Rev. Mr. GILBERT. His sermons were very satisfactory performances, and pervaded with a spirit of genial Christianity.

**QUESTIONABLE ADVERTISEMENTS.**—The time, which we have been looking for, has, at length, arrived, when all our contracts for advertising abortion medicines, and lottery enterprises, both under various guises, have run out. The further admission into our columns, of any of this kind of matter, will be mediocrity and perniciosity excluded. We have, for a long time, been of the opinion, that, for a family paper, this kind of matter was incompatible, but the general indifference, both of the local and city press, on this subject, has induced us to suffer the thing to pass, in the face of our convictions.

**MOVEMENT OF THE PEOPLE.**—The citizens of Jefferson assembled on Saturday evening last, at the court house, for the purpose of giving an expression to their sentiments, upon the course of the government towards the citizens of Oberlin, now on trial at Cleveland. The meeting was ably addressed by A. KELLOGG, Esq., the chairman, HON. D. CADWELL, a J. R. GUDWICK, Justice SIMON, Rev. Mr. OLDS, and others, in a manly spirit of opposition to the odious Fugitive Slave Act, and to the oppressions of a government whose highest ambition seems to be to bow itself in the dust of humanity before the insatiable and intolerant spirit of slavery. The following will show the tenor and spirit of the resolutions adopted:

"That the enactment known as the Fugitive Slave Law was conceived by the enemies of the Union; it violates the spirit as well as the express language of the Federal Constitution; in its terms, it is wantonly insulting to a free people—it violates the rights of the States and is intolerably tyrannical and oppressive in its character. No person possessing the spirit of freedom, will respect or obey it."

A proposition to revive the ancient order of "The Sons of Liberty," was made by Mr. Giddings, who submitted the form of a constitution for its immediate organization, which was signed by about one hundred persons.

The powers that be, should not be left in the dark as to the sentiment of the people, towards this hateful law, and the assembling of their people in this manner, and the putting of their solemn protest upon paper, has the warrant of revolutionary precedent. It is the recognized mode of freemen, and should be followed by every village and hamlet of the State.

The interest of the meeting was increased by a barrag from Judge Warner, of anti-school law notoriety, in opposition to the views of the meeting.

**DECISIONS OF THE STATE COURT.**—That manly, independent, and out-spoken journal, the *Portage Democrat*, says: "The future will show that we are under the influence of no blindly censorious or factious spirit, when we say, that the present Supreme Bench of Ohio, have not only fallen immensely below a just public expectation, but below the duty which they owed to the free citizens of Ohio, the duty which they owed to the imprisoned citizens in Cleveland, the duty which they owed to justice, to imperiled rights, and to an independent, fearless, and faithful exercise of their high functions."

Such decisions set back the wheels of progress, dampen the ardor, dash the spirits, and destroy the hopes of freedom.

And such are the results, the out workings of Republican struggles, Republican sacrifices, and Republican victories!

How long shall it continue to be thus? Let the people answer.

**COURT OF JUDICIAL TRIALS.**—The aptness and force of this consideration, dwelt upon so differentially by Judge Peck, in giving the unanimous opinion of the bench of the Supreme Court, is set forth in the action of the U. S. Court, in a very striking manner. The position of the State Court will allow no interference to relieve the rescuers, because "county" judicial amenity a punctilio, forbid until after conviction and sentence. This being the acknowledged rule of action, the District Court has nothing more to do than merely to adjourn, and put the cases over at its pleasure, and partisan malignity may be gratified to satiety, until the ants carry the carcasses of the victims to federal vengeance, through the key holes of their cells. This stretch of court county, must have caused some commotion about the ribs of the red-faced occupant of the bench, & his perhaps less usual, but faultlessly correct Prosecuting Attorney. We find it hard to hold in check, our reverence for the comity of the highest tribunal of the State at Ohio, after a recovery from the first flush of respect shall have passed, will become a by-word that the waters of oblivion will not soon close over.

The people of Massachusetts on Monday last voted on the proposition for an amendment of the State Constitution, requiring naturalized citizens to reside two years in the State after being naturalized before they can be admitted to the privileges of the elective franchise, and the amendment was undoubtedly carried.

Senator SEWARD sailed from New York for Europe in the steamship Ariel, on Saturday last.

**DIVISION OF CALIFORNIA.**—The prospect of dividing California, no doubt with the idea of the erection of the southern part of it into a new Slave State, is again on the tapis. A bill having that object in view has passed both branches of the California Legislature, and, at the last accounts, only wanted the signature of the Governor, which will no doubt be given to it. This bill appears to have passed the House in the first place without attracting much attention. A motion to reconsider gave rise to a long debate, in which the slavery question was discussed at length, and with a good deal of warmth on both sides. Finally, the motion to reconsider was defeated by a vote of thirty-one to twenty-seven. Of the proceedings in the Senate we have yet no accounts, beyond the facts of a favorable report upon the bill by the Committee to which it was referred, and its subsequent passage.

**BULL'S HEAD.**—The total number of beef cattle raised in Forty-fourth street on Tuesday the 10th, footed up 2,333, the market was decidedly better for drovers than it was a week previous; without advancing the price per pound, the market being livelier, better estimates of weights were obtained, and a very much larger proportion of the stock was sold than on Tuesday of last week. The average quality of the stock this week is decidedly better than it was last; and, should the market hold out as good throughout as it opened, the average of the sales will be about a pound net higher than the average of last week. A very large portion of the cattle sold will range over 11c. a pound net, and all the best, such as first-rate stilled cattle sold at 12c a pound for the beef, and some of them at 13c. Several entire droves were sold out this week on the first day, and very few of any sort sold less than 10c, a pound and many of only fair quality, for retail market beef, average 11c. a pound net for the whole drove. There is a large number of distillery-fed cattle in market this week.—*Tribune.*

**Gov. Chase, of Ohio, in forwarding to the State Central Committee a communication addressed to him by German Republicans of Sandusky, and vicinity, with reference to the proposed naturalization law in Massachusetts, takes occasion to express his own views. He feels very confident that the Committee concur fully in the almost, if not entirely, unanimous Republican opinion in this State, that no discrimination should be made by amendment of a State Constitution or otherwise, between citizens of foreign, and citizens of native birth.**

Telegraphing in India is attended with peculiar difficulties. White ants eat the bottom of the posts away, elephants run against the posts and push them over, the monkeys use the wire for gymnastic exploits and often wrench it from the insulators, and hurricanes often prostrate miles of posts at once.

The Shoemakers of Pittsburgh and Allegheny city, on the Ladies' Branch of that business, are on a strike for higher wages.

**APPEALS IN UTAH.**—The Bridgeport (Connecticut) Farmer takes occasion to glorify the Administration of Mr. Buchanan in this wise: "It (the Administration) has put an end to the rebellion in Utah, and established order and peace in that Territory."

It is well to understand the meaning of terms. As to "order and peace in that Territory," there never was a time when life and property were more insecure there than now, and when crimes committed by Mormons had more certain impunity. The man who ventures into the U. S. Court to testify against the Danite murderer, does so at the peril of his life. Grand and pitiful juries are packed by the instruments of Brigham Young for the very purpose of securing assassins from punishment. In truth, unless all reports from Utah be lies, the U. S. Government has just about the same ascendancy and the laws of U. S. are regarded there, as much as in Patagonia or Dahomey, or no more.

**Mr. Underwood's story, "Bulls and Bears," in the Atlantic Monthly, is to be concluded in the next number. The author must be congratulated upon the achievement of a most decided success. It is one of the few little stories of the day. It has a good plot well wrought out. The characters are boldly marked; the tide of event and incident rolls straight on; and the intimacy displayed with the operations of the gamblers of the exchange and the street demonstrates rare observation.**

The religious anniversaries in New York commenced on Saturday, 7th. The New York branch of the tract society met on Wednesday. No attempt was expected to oust the pro-slavery managers, the other party apparently preferring the policy of directing their efforts to the support of the parent society at Boston, which now has an office in New York.

The Abyssinian princes who were in Paris, were lately very much annoyed by a large crowd following them in the streets. The curiosity arose from a report that the royal babies were from the Cannibal Islands, where several Frenchmen were lately served up on the half shell; and the large white teeth of one of their highnesses added to the unpleasant illusion.

The Kentucky Slave Catchers were taken into the custody by the Lorain County Sheriff on a warrant for kidnaping, and taken to Elyria to be lodged in Jail until their trial at the next term of Common Pleas Court, which commences on Tuesday next.

The St. Louis Democrat learns from Leavenworth, that Messrs. Hemmings & Co., bankers of that city, received a consignment of \$5,000 in gold dust on the 5th, by express direct from Pike's Peak. This is more conclusive than a dozen bragging letters.

Reuben Johnson, the negro who took the lead in trying to rescue the fugitive slave Jackson at Zanesville, was arrested on Tuesday last. He attempted to shoot Deputy Marshal Campbell, but his pistol snapped and missed fire.

The remains of the victims of the Osawatimie massacre in Kansas have been placed together in a new grave, over which a monument will be built. The ceremony of removal was witnessed by a large assemblage of people, and an oration was delivered by Charles A. Foster.

A fire broke out in the steamer Henry Graff, at Pittsburgh, Pa., at noon on Saturday noon which quickly communicated to the adjoining boats, and in less than five minutes 10 steamers were enveloped in flames, and soon proved a total loss.

Some thirty young Germans have left Cincinnati for the father-land, intending to enlist in the service of Austria, out of dislike to Napoleon.

John S. Holland of Kentucky offers \$150 reward for the return to his "service" of Thomas Whitlock a Methodist minister!

The report that Chancey Vibbard, esq., intended to resign his position of General Superintendent of the Central Railroad, on account of ill health is unfounded.

New York Market—May 11.
